

CHERRY BLOSSOMS WELCOME THE NEW SEMESTER

英文電子報

Along with the coming of spring, cherry blossoms, the school flower of TKU, have already bloomed everywhere in the campus, welcoming a new semester.

The cherry trees beside the Maritime Museum have been in flower already. The thriving pink blossoms turn into a sea of flowers, which attract everyone' s attention, making them stop walking and appreciate the beautiful scenery. Some of the students even took a picture with their camera to grasp the fantastic moment.

Beside Student Activity Center, and at the lawn in front of the post office as well as Ying-yuan, the cherry trees are ready to bloom. Under the golden sunshine, the pink cherry blossoms swing with the breeze, decorating TKU campus in the spring. (~Shu-chun Yen)
