

## Raising TKU' s International Image through Gender Equality

學校要聞

On November 11, the International Press Group Covering Taiwan Gender Equality visited the Maria Sklodowska–Curie Special Exhibition held at the TKU Tamsui Campus. The 15–member delegation was received by Department of Chemistry Professor, Dr. Wu Chia–li, who led the visitors in a forum discussion on gender equality. Scholar and expert from the Gender Equality Education Committee, Hung–yen Angela Sung, observed that “given the timing of the visit – during TKU' s 61st anniversary and in the centennial year of Maria Sklodowska–Curie receiving the Nobel Prize – the visit is truly essential in promoting Tamkang' s image worldwide” .
