Together, these senior TKU staff members, along with 30 colleagues from the Department of Russian and the two visiting delegates took part in a round of informal discussions and exchange.

Mr. Nickendorff showed particular interest in the TKU university song. When asked why he chose to come to Taiwan, he explained: "Taiwan is a very small country, but it has experienced great success in educational development. The success of a country as a whole is closely linked to the educational system adopted by that country so I decided to come here and research Taiwan's education system."
