

An Innovative Collaboration with Kiujo Gakuin University

學校要聞

Nagoya's Kiujo Gakuin University recently teamed up with local travel agencies to release a comprehensive "Taiwan Itinerary". KGU students produced the detailed travel plan as part of a globalized education task, which led to a collaborative effort between students at KGU and TKU. Tamkang students used Facebook to send information about travel in Taiwan to KGU students.

After completing the projects, the participating students and two supervisors visited Tamkang, where they interacted with students from the course "Japanese Conversation (Tourism)". They also took part in a forum, held on the afternoon of Feb 26 at the TKU College of Foreign Languages and Literatures, Tamsui Campus.
