

DEPARTMENT OF CHEMISTRY TO MEET FRESHMEN AND THEIR PARENTS

英文電子報

In order to help freshmen and their parents have a better understanding of the Department of Chemistry, the department will hold a symposium talking with freshmen and their parents on Oct. 5.

The chair of the department will brief the participants what is going on in the department and introduce them the related courses they will study.

The meeting will be held from 9:00 am to 12:30 noon at the Chung Ling Chemistry Hall. Some outstanding alumni of the department now having excellent performance in their job will participate in the meeting.

Those outstanding alumni invited to the meeting will explain their own experiences as examples for the participants to follow. The symposium will be divided into two themes: biochemistry and electronic materials. The outstanding alumni invited to the meeting will include Ho Tu-jung, professor of the Department of Chemistry, National Taiwan University (NTU) Hsu Ling-hsiang, Secretary-general of the Biotech Center Su Chung-hui, Director of the Patent Department of Taiwan Semi-Conductor Manufacturing Corp.
