英文電子報

An International Lecture Series on Distributed Multimedia and Database Systems will be held on Wednesday (Dec. 26) for 2 days in room E802, Engineering Building, TKU. And it is expected to continue thru May, 2002.

Departments of Electrical Engineering and Information Engineering will jointly sponsor this event. Four world-renowned scholars will talk about database systems, data/information representation, data and information security, multimedia/image processing and parallel systems, etc.

Dr. Feng Chao-kang, V.P. for Academic Affairs, and Prof. Tseng Hsien-hsiung, Department of Information Sciences, National Chiao Tung University, will each address the Series with their opening remarks.

The four well-known scholars, also guests of honor of TKU, are: Dr. Li Chung-sheng, Senior Manager, Electronics Business & Information Management Section, IBM T.J. Watson Research Center, USA Dr. Nikolay N. Mirenkov, Department of Computer Science, The University of Aizu, Japan Dr. Tok Wang Ling, Department of Computer Science, National University of Singapore and Dr. Shietung Peng, Hosei University, Japan.
